**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I enjoy the choice I have with Sonic and want to see small companies like it continue to thrive and drive innovation by larger less nimble telecommunication companies. I have lived in locations with 1 or 2 choices. I moved and was happy to be able to get Sonic in my new home. They have far better customer service than Comcast or AT&T did and that is what I want my money to pay for. After living in the same location for a year I was notified I could get fiber internet connection to my home. It seems that only Sonic has succeed in developing a business which respects my right to open access to all internet connections. They also have the only business model which has successfully delivered fiber internet to me. A feat which continues to stifle the larger ISPs which because of the lost revenue may some day catch up and improve in ways smaller companies can do faster. Please allow small businesses to thrive and prevent large ISPs from limiting my choices. I want Sonic, now and forever.
